I worked with Brandon across our entire digital marketing tech stack. In doing so, I learned a lot from him about email design, automation, and campaign building. His experience blending Salesforce Marketing Cloud with overall strategy and recent AI features can not go understated. He was a huge help in the project planning phase while also handling all of the implementation. I highly recommend working with Brandon!

It is my honor and pleasure to highly recommend Brandon Caples, for a position with your company in the arena of website development and project management. For nearly 3 years Brandon held a position with our multi-disciplinary healthcare company, as our chief director of our marketing department. And Brandon exceeded our expectations by increasing our exposure and new patients, allowing the practice to experience a 60% growth in less than 3 years, in large part because of his creativity, knowledge of the web, web design, and increasing our exposure, especially on the internet.

Of course the best qualities of Brandon are his like-ability, his attitude, his team player mindset, his work ethic, and especially his high moral character. Brandon Caples is detail oriented, a true follow-thru, a self starter, and he understands the importance of making a commitment to constantly learning and staying up to date with the latest in technology and computer science. Brandon is the best of the best and someone you could trust to help grow your company.

I have complete confidence in Brandon Caples' ability to impact any company, especially in the arena of computers, project management, and web design. It is with confidence that I give you, my highest recommendation of Brandon Caples.

## LETTERS OF RECOMMENDATION

I had the privilege to work with Brandon during his time with Street Tuxedo. Brandon worked as a sales associate in one of our stores but volunteered to take on a larger role. Brandon wrote our blog, help[ed] keep our social media presence up to date and also wrote articles on our behalf for local bridal magazines.

If our company had a position in PR or Marketing, we would hire Brandon full time.
